## WELLNESS

Reference: Richard B. Russell National School Lunch Act, 42 USC §§ 1751, 1758, 1766; Child Nutrition Act, 42 USC § 1773  
7 CFR Parts 210 and 220

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the Academy's students. Furthermore, research concludes that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

The Board, however, believes this effort to support the students' development of healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

- A. With regard to nutrition education, the Academy shall:  
**(Specific goals need to be inserted here. See Appendix A.)**
- B. With regard to physical activity, the Academy shall:  
**(Specific goals need to be inserted here. See Appendix B.)**
- C. With regard to other school-based activities the Academy shall:  
**(Specific goals need to be inserted here. See Appendix C.)**
- D. With regard to nutrition promotion, the Academy shall:  
**(Specific goals need to be inserted here. See Appendix D.)**

Furthermore, with the objectives of enhancing student health and well-being, and reducing childhood obesity, the following guidelines are established:

**(Specific goals need to be inserted here. See Appendix E.)**

The Board designates the Educational Service Provider as the individual charged with operational responsibility for verifying that the Academy meets the goals established in this policy.

The Educational Service Provider shall appoint an Academy wellness committee that includes parents, students, representatives of the Academy food authority, educational staff (including health and physical education teachers), mental health and social services staff, school health professionals, members of the public and Academy administrators to oversee development, implementation, evaluation and periodic update of the wellness policy. The Wellness Committee shall be an ad hoc committee with members recruited and chosen annually.
